EHC Smart Wi-Fi Control

Simply connect to the Internet within your property using a Smartphone, Tablet or PC and you will be able to open your EHC Smart APP to control your heating 24/7. Our APP is compatible with both Apple and Android products.

Our 'easy to use' APP has a selection of menus designed to maximise your comfort and reduce your Heating costs

- Control your heating anywhere and anytime
- Switch the Heaters On/Off at any time
- Adjust each room temperature separately
- Limit electricity consumption to avoid exceeding maximum power available
- Monitor your current electricity consumption
- View the electricity and temperature consumption history
- Check the latest weather forecast

To convert your Smart Wi-Fi ready ecoSAVE Heater to an intelligent appliance that can be controlled anywhere, anytime you can purchase the EHC Smart Wi-Fi kit which includes:

- Smart Gateway
- Power Meter Clamp

Smart Wi-Fi App

Home Page Menu
Displays the heating status, temperature and operational functions of your system. You can select how you want to program your heaters 24/7 however you have the facility to make changes to your heating requirements anytime, anywhere.

Consumption Limiter Menu
All homes have a maximum electrical power capacity. In order to stay within the limits of the capacity the Smart system has an inbuilt electricity consumption monitor / limiter. Our Smart Kit includes a 100amp Power Meter Clamp.

Power & Temperature Statistics Menu
The Smart system enables you to monitor the consumed power and temperatures at any time.

Individual Heater Devices Menu
The Smart Wi-Fi system allows you to add, delete and prioritise Heaters at any time to provide you with full system control.

Weather Forecast Menu
The Smart system also features a live weather forecast facility. This will help you to anticipate any significant temperature changes and adapt your heating times and temperatures to suit.

Available for Apple and Android phones

The Smart Choice for The Smart Home.

eco SAVE®
Dynamic Electric Heaters

eco SAVE®
DYNAMIC
ELECTRIC
HEATERS.

The ecoSAVE Dynamic Heater is designed to meet the heating demands of the modern home. Unlike other inferior heaters on the market the ecoSAVE is manufactured from high grade aluminium designed to last. The Heating Elements and High Performance Heating Oil are housed within the sturdy aluminium body of the heater.

Due to the modular construction and air flow outlets at the top of the heater the ecoSAVE benefits from fast heat-up times and provides an even surface temperature with optimum convection through all heating cycles.

For ease of operation the easy-to-use digital programmable thermostat is located at the top of the heater. It will accurately control both time and temperature, is fully programmable 24/7 and offers comfort, economy, frost protection and on/off settings.

At EHC we value your safety and as such the product is fully protected against overheating using a high precision automatic cut-out device.

During periods when the Heater is not required the main on/off switch located on the side of the radiator can be switched off.

Our "Click & Fit" hanging brackets make the installation of the ecoSAVE Heater easy and quick to install.

For future maintenance purposes the main PCB is housed in an easy to remove cartridge system to avoid removing the Heater from the wall during repair.

I'M WI-FI READY!

Features

- High Performance Heating Oil
- 100% Energy Efficient
- Manual 24/7 fully Programmable Timer
- Digital Thermostat accurate to +/- 0.20 degrees
- EHC Smart Wi-Fi Ready option available
- Tamperproof Facility
- On/Off Switch on the side of the Heater
- Easy and Quick Installation
- Includes standard UK 13 Amp plug and wallmounting brackets
- Silent in Operation
- Feet or castors available as optional extras
- Safety cut out system to prevent overheating
- 100% recyclable Aluminium Body
- All Radiators 100mm in depth
- 5 outputs from 500watt to 1500watt
- **Guarantee: 10 years on Aluminium Body and 2 years on Electronics**
